### → *épuri Revitalizing Anti-Aging Serum*

*épuri Revitalizing Anti-Age Serum* was developed to provide a skin repair formula that delivers concentrated benefits directly to your skin. *épuri Revitalizing Anti-Aging Serum* is especially formulated for those who want an anti-aging formula that will eliminate and prevent wrinkles and other age related skin conditions. *épuri Revitalizing Anti-Aging Serum* provides a light and silky fluid that glides on easily and absorbs quickly, leaving your skin feeling smooth and tight everyday.

### → *What Makes Our Anti-Aging Serum Superior*

*épuri Revitalizing Anti-Aging Serum* contains a super concentrated anti-oxidant and peption-5 blend, creating a effective daily serum. Peption-5, a mixture of 5 different amino acid chain called peptides, relaxes facial muscle contractions to smooth out fine lines and wrinkles. Alpha Lipoic Acid, Green Tea Extract and DMAE are already recognized as clinical treatments to combat skin aging. Alpha Lipoic Acid, the most potent antioxidant on the market today, helps repair aged skin while preventing further damage. Green Tea Extract boosts protective antioxidant action and helps detoxify your skin. DMAE often called “facelift in a jar”, helps Firm and Tighten the skin.

Here are some key ingredients that make this serum superior to other seriums on the market today.

>> 6 different peptides and antioxidant help re-build protein in skin.

>> Sage, lemon, and soapwort extracts are one of the best natural remedies to soothing and softening the skin. These wonderful ingredients are known to help many different skin problems. Studies have shown that they cleanse the pores and help with pore abridgment.

>> Sodium hyaluronate has an excellent ability to keep moisture in the skin for a long time. Our bodies have the natural potential to produce Hyaluronic Acid for moisturization and joint lubrication. As we age, however, the natural creation of Hyaluronic Acid decreases. One of the most important biological functions of Hyaluronic Acid is its capacity to hold more water than any other natural substance. Thus, Hyaluronic Acid performs as an unbeatable moisturizer, while protecting, hydrating and regenerating your skin.

>> Coenzyme Q10: one of the better antioxidants, coenzyme Q10 also fights the basic breakdown of your DNA cells, keeping the skin intact and healthy
